

High-Resolution Land Cover Summary

Base Land Cover (Top-Down*)

Supplemental Land Cover

Impervious Surfaces (8.28 acres - 2.5 % of total) (Bottom-Up**)

Agriculture (0 acres - 0 % of total)

No Agricultural Land Cover Mapped in this Area

Wetlands (122.88 acres - 36.4 % of total)

Tree Canopy (277.21 acres - 82 % of total)

*Top-Down: A traditional land cover mapping approach - land cover is mapped as the uppermost land cover class.
**Bottom-Up: A new land cover mapping approach - land cover is mapped as the lowermost land cover class. This approach results in improved mapping of features overlapped/observed by other features.
See UWM SAL High-Resolution Land Cover 2022 Report for more detail.
